

RAJESH GOUDA

AI & Machine Learning Engineer | B.E. AIML Student

Email: rajeshpar2005@gmail.com | Phone: +91 8951721253 | Location: Honnavar, Karnataka, India

LinkedIn: linkedin.com/in/rajesh-gouda038 | GitHub: github.com/rajeshgowda116

PROFESSIONAL SUMMARY

Passionate Artificial Intelligence & Machine Learning student dedicated to designing intelligent, real-world AI solutions. Specializes in Machine Learning, Generative AI, RAG architecture, and full-stack AI application development with Python, FastAPI, and Django. Experienced in hackathons, open-source development, and freelance technical solutions.

EDUCATION

B.E. in Artificial Intelligence & Machine Learning (2024 – Expected 2028)

Yenepoya Institute of Technology (YIT), Moodabidri, Karnataka (Affiliated with VTU Belagavi)

Focus Areas: Machine Learning, Deep Learning, Data Science, Computer Vision, NLP, Generative AI.

EXPERIENCE

AI & Machine Learning Engineering Student (2025 – Present)

- Developed AI chatbots, machine learning predictive models, data analytics dashboards, and web apps with Python, FastAPI, and Scikit-learn.
- Engineered RAG pipelines and LLM-driven automation tools; active participant in competitive hackathons.

Freelance AI & Python Developer (2026 – Present)

- Built custom AI, ML, data analytics, and Python backend solutions for clients including predictive models, REST APIs, and automated tools.

TECHNICAL SKILLS

Programming:	Python, SQL, JavaScript, HTML5, CSS3
ML & AI:	Machine Learning, Deep Learning, Scikit-learn, TensorFlow, PyTorch, CV, NLP, GenAI, RAG, LLMs
Backend & DB:	FastAPI, Django, Flask, REST APIs, MySQL, SQLite, MongoDB
Tools & Cloud:	Git, GitHub, Docker, VS Code, Jupyter, Google Colab, Vercel, Render, Hugging Face Spaces

KEY PROJECTS

1. EduLink – Smart College Management Platform

Full-stack college platform with role-based dashboards for admins, faculty, advisors, and students. Attendance, study materials, announcements, performance tracking. Built with Python, Django, HTML5, CSS3, JavaScript, SQLite/MySQL.

2. AI Math Chat – Conversational Math Assistant

Conversational assistant providing step-by-step math explanations with real-time streaming responses and session history. Built with Python, FastAPI, OpenAI API, SQLite, JavaScript.

3. Student Mail Agent – Autonomous AI Email Assistant

Smart AI email assistant for students featuring summary generation, priority detection, draft replies, and deadline extraction via Gmail API & LLMs.

CERTIFICATIONS & ACHIEVEMENTS

- **GenAI Powered Data Analytics Job Simulation** – Tata Group × Forage (Jun 2026)
- **Git Training Certification** – IIT Bombay (86.67% score, Dec 2025)
- **R Programming Training Certification** – IIT Bombay (82.50% score, May 2026)
- **Python Pandas Course** – Intellipaat Academy (Feb 2026)
- **Hackathon Participant** – Open Loop 2026 (Team Yen Quads, Yenepoya School of Engineering)
